

FORUS SE250 SHREDDER

The Forus SE250 is a compact and portable twin shaft machine that can easily be transported on a hooklift lorry.

This particular machine is our ex-demonstration machine manufactured in 2017 with less than 1,000 hours use and fully serviced and maintained by our factory trained technicians.

Various breaker bar options are available enabling the output size of the material to be altered depending on your needs.

Suitable for bulky waste, wood, green waste etc this machine is excellent value for money at only £130,000 + VAT

If you would like to view the machine or arrange a demonstration – please contact us.
